Your order placement steps will depend on the fullfillment type selected: **Email** or **Links/Codes**. No matter which fulfillment option you desire, remember every Bulk Gift Card order is limited to **50,000 total cards**.

Email

With **Email** fulfillment, the eGift Card product will be sent straight to the recipient email once the order is processed. The recipient will have full gift card details and be able to redeem at any Walmart or Sam's Club location. You may submit these orders manually or via CSV spreadsheet file. Instructions for both are outlined below:

Manual Entry

Manual Entry is ideal for smaller purchases or replacements. Manual Entry is limited to a maximum of 10 recipients per order.

- Select the **Design** for your eGift card(s).
- Select Send as: Email
- Select the Amount (denomination) for your eGift card(s)
 - Customers can select preset options or enter their own, not to exceed \$500.00
 USD per gift card.
- Enter your desired **Quantity** of gift cards.
 - If you are ordering more than 10 eGift Cards in one purchase, your purchase method will automatically default to Upload CSV File. See **Spreadsheet** instructions in the next section.

Payment Options

You will be directed to the Checkout page to input your payment method for your eGift Card purchase. You will select your payment method from the options available.

If paying with a Credit Card, select New Credit Card, enter your credit card information, and click Place Order.

If paying by Wire, the wire instructions will be visible prior to placing the order. You can download an invoice with wire instructions after the order has been placed in Order Details as well.

Once completed, you can click your order number to go to Order Details or click Continue Shopping to purchase additional cards. You will receive an order confirmation email to the email on the account that purchased the cards. Orders paid for via ACH will be processed after your payment is received.

Spreadsheet

Gift card orders placed with the Spreadsheet method cannot exceed 50,000 line items

This option is ideal if you know the full information for your intended end-users, intend to send large volumes of eDelivery gift cards, and like to keep track of invoicing for your company's own bookkeeping purposes.

If you are ordering more than 10 eGift Cards in one purchase, your purchase method will automatically default to Upload CSV File.

- Select the Design for your eGift cards
- Select Send as: Email
- Click Download CSV Template
- Fill out CSV template with desired recipients and save
- Click Upload and attach updated CSV template
 - Note: the file must be in CSV format
- After loading spinner dismisses, click Add to Cart and proceed through checkout

You will receive an order confirmation email to the email on the account that purchased the cards. Orders paid for via ACH will be processed after your payment is received.

Email Redemption

When recipients of eGift cards receive the email, they will be prompted to View and print this card or Add to their <u>walmart.com</u> Account. Selecting View and print this card will take the recipient to the certificate page for that card. Selecting Add to Account will take the user to their <u>Walmart.com</u> account and allow them to add the funds directly to their account.

Once the email address is confirmed, the eGift Card details will be accessible for the end-user:

Links/Codes

The Links/Codes method of order fulfillment is the most ideal for the convenience, quality, and security needed for larger businesses.

Purchasers will receive a link to download a spreadsheet containing the card numbers, PINs, and URLs to the certificate page for each card. You can then send the links/codes to the intended end-users(s) via email.
